[Fifth publication.]

NOTIFICATIONS.

No. 81.—*The 28th January 1924.*—The following draft of revised rules and rates of tolls for the Calcutta and Eastern Canals, Tolly's Nala and Sundarbans Steamer Route, which, in exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make in supersession of all previous notifications on the subject, is hereby published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 20th March 1924, and any objections or suggestions received by the undersigned before that date will be considered:—

Draft Revised Rules and Rates of Tolls.

The rules shall apply to the following navigable channels which are included under the designation "Calcutta Canals and Tolly's Nala" and the "Sundarbans Steamer Route."

I. The Circular Canal comprising the still-water canals between the Dhapa and Chitpore Locks and the New Cut Canal from Ultadingi to Dhapa Lock, together with its junction with the river Hooghly and Orange Soorah at Dhapa.

II. The Central Lake Channel from its junction with the Circular Canal at the Dhapa Lock to its junction with the Bidyadhari at Bamunghatta.

III. The Nowbhangha khal extending northwards for a mile from its junction with the Central Lake Channel below the Dhapa Lock.

IV. The Soorah from its junction with the Central Lake Channel below the Dhapa Lock and extending to the fish market situated adjacent to, and to the west of, the Dhapa Inspector's residence.

V. Tolly's Nala extending from a line drawn across the Nala 25 feet west of the Hastings Bridge at Kidderpore to the Bidyadhari river at Samukpota.

VI. The Kristopore Canal extending from a point in the New Cut Canal, 1 mile 4,700 feet from the Chitpore Lock to a point where it joins the Bhangore khal at Kantatala.

VII. The outfall channel of the Thakurdhari sluice, 4,180 feet in length, extending from a point in village Thakurdhari near the 5th mile-post of the Kristopore Canal to the Thakurdhari sluice on the Paran Chaprasi's khal.

VIII. The Sundarbans Steamer Route as defined in notification No. 71 of the 22nd July 1922.

1. Every vessel on entering the Calcutta Canals or Tolly's Nala shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, the persons appointed by the Governor in Council to collect tolls and officers to whom such persons are subordinate shall have authority to enter upon and again measure a vessel notwithstanding that it was measured on entering the canals.

2. Vessels for the purposes of the determination of tonnage shall be divided into two classes as below:—

Class I.—To include all vessels of the usual native types of build, including *saltees* and *hapars* (fish cages).

Class II.—To include all steamers, flats and barges, and other square built vessels.

The net tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements:—

Class I.—

A.—The product of one quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches: the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of $12\frac{1}{2}$ maunds, any remainder of less than $12\frac{1}{2}$ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D.—**Saltees.**—The product of one quarter of the inside length of the vessel measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

Class II.—

For vessels of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I, shall be increased by one-half. For vessels of this class above 5,000 maunds measurement the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of class II which are furnished with reliable way-bills, the gross maundage of cargo shown by the way-bills, or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which toll will be charged:

Provided that firms or individuals, who wish to make use of this rule, must be approved by the Superintending Engineer of the Southern Circle, and that such approval may be withdrawn for any just cause.

3. Every vessel entering the canals shall be furnished with a ticket on which the name of the sorang, manjee or other person in charge of the vessel, the date of entry, the maundage of the vessel, the cargo it contains, the amount of toll charged, and the number of days for which the ticket remains current, shall be entered.

4. All tolls are payable on demand and shall be paid at the toll station before a vessel is permitted to proceed: Provided that the Superintending Engineer of the Southern Circle may at his direction permit vessels belonging to individuals or firms of recognised standing to proceed without pre-payment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

5. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rule 2 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section IX of the Act.

6. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a sum of one rupee and annas eight. Provided that for tickets on which the total tollage is less than six rupees the fee to be charged for a duplicate shall be one quarter of the total tollage. The minimum fee will be eight annas per ticket.

7. A vessel which has been detained under these rules or under section IX of the Act may not be removed from the canals without the order of the collector of tolls until the toll due has been paid and a ticket obtained for presentation at the exit station. During such detention the manjee, owner or agent must make arrangements for the safety of the vessel and cargo.

8. All vessels, whether the property of Government or of private owners, are liable for toll except those specially exempted under any Government orders in force for the time being.

9. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the supervisor appointed by the Governor in Council under section XIII. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank. No vessel may be launched in the canal without the previous written permission of the supervisor.

10. At places where mooring posts have been provided by the supervisor, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the supervisor may direct and shall not be moored in any other manner.

11. The Superintending Engineer, Southern Circle, may fix the limit within which vessels are permitted to remain free of toll, and may also define the limits within which no loading or unloading shall be permitted.

12. No vessel whose extreme breadth including overhanging cargo exceeds 35 feet will be permitted to enter the locks at Chitpore or Dhapa: in the case of the Kulti and Bamunghatta Locks the maximum width allowable is 29 feet.

13. The supervisor may, by written notices to be posted at the toll offices, prohibit the dropping of anchors or the putting up of bamboos or *luggees* in any specified part of the canals or on the banks.

14. Vessels shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the supervisor, and no vessel shall be made fast or be placed outside of vessels so secured. No vessel or raft shall be placed in such a position as to endanger the safety, or obstruct the passage, of other vessels. Every vessel shall at all times have some responsible person on board when the vessel is within the locked canals between toll stations or on Tolly's Nala.

15. Vessels passing through the canals shall keep in separate lines, in accordance with the rules in force as laid down by the Superintending Engineer, Southern Circle from time to time.

16. No person shall deposit goods of any description on the berms of the canals between the frontage roads or towpaths and the canals, except during the actual process of loading or unloading vessels, without the previous permission of the supervisor.

17. Iron built cargo boats, with outside angle irons projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the edges of the angle irons so as to prevent them from causing damage to the lock.

18. No fire or open or unprotected light of any description shall be used on vessels containing petroleum, jute, hay or straw while in the Calcutta Canals or Tolly's Nala; and no fire or open or unprotected light (except in the case of steamers, the galley and engine-room fires and the electric light) shall be used on any vessel while in a lock basin.

19. No person shall wilfully or negligently allow a vessel to sink in the canals. No vessel which is obviously overloaded or unseaworthy will be permitted to proceed along any part of the canals until made safe to the satisfaction of the supervisor or his staff.

20. In every case of a sunken vessel, whether due to negligence or otherwise, the supervisor and his subordinates shall offer every assistance in removing the same.

If three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that when the wreck obstructs the fairway they shall take immediate steps to remove the same.

21. When a sunken vessel has been recovered, the supervisor shall cause notices to be posted at the locks, toll-offices, or other prominent places, calling on those concerned to pay to the collector of tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo; should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section IX of the Act.

22. The purchaser of a vessel sold under the provisions of section IX of the Act shall have the right to take it out of the canals on the day of purchase, or within such time as may be allowed by the collector of tolls, without payment of tolls.

23. When any laden vessel which has sunk has been recovered or when, any laden vessel has been seized under the provisions of the Act, or of these rules, the supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

24. If the supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 23 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta newspaper.

25. Steamers are not allowed to tow flats or cargo boats in the Circular Canal, but may tow one flat or barge at a time astern in the New Cut Canal or Kristopore Canal within toll limits.

26. **Lights and signals.**—All vessels, whether travelling or moored in the Calcutta Canals or Tolly's Nala, must, between sunset and sunrise, carry a white light properly protected from the weather on the forepart of the vessel where it can be distinctly seen from all sides. All steam vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam vessel, whether in motion or moored, shall carry the light prescribed above.

27. **Speed of vessels.**—Every vessel proceeding through the Calcutta Canals and Tolly's Nala must, between sunset and sunrise, limit her speed to three miles per hour.

28. For any contravention of rules 7, 11, 13, 14, 15, 16, 18, 19, 25, 26 and 27 the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a day for any continuing infringement.

29. No boats will be allowed to remain in the entrance channels to the Dhapa and Chitpore Locks.

30. The canals may be closed once a year for effecting the necessary repairs to them on one month's notice of the intention so to close them being given; but in the event of any sudden emergency the canals may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

The lists shall be respectively called "The Special Jurors' List" and "The Common Jurors' List" for the

particular Session, designating it by the date on which it is to commence, and shall be prepared as follows:—

(1) The names of all persons, if any, ordered to be entered in the list of Special Jurors for such Session under rule 12, 15 or 20 shall be first entered in the said list, unless the Judge shall be satisfied as regards any one or more of such persons that he or they will be unable, from illness or other sufficient cause, to attend at such Session, in which case the name of such person may be set aside in the same manner as it might have been set aside under rule 12, if the name had been drawn by lot for such Session. The Judge shall then cause to be drawn by lot the names of such a number of persons qualified and liable to serve on Special Juries as, with those already on the list, will, subject to the provisions of these rules, make up the required number of persons qualified and liable to serve on Special Juries, and the names of such persons shall be entered upon and form the list of Special Jurors liable to serve and to be summoned as Special Jurors for such Session.

The Judge shall then cause to be drawn by lot the names of such a number of persons qualified and liable to serve on Common Juries as, with the names already on the list, will, subject to the provisions of these rules, make up the required number of persons qualified and liable to serve on Common Juries, and the names of such persons shall be entered upon and form the list of Common Jurors liable to serve and to be summoned as Common Jurors for such Session.

14. A copy of such lists shall be annexed to a precept to the Sheriff commanding him to summon such number in each list as may be directed in the precept. The Sheriff shall summon the Jurors in the order in which their names appear on the lists until service has been effected on the required number. Special Jurors may be required to attend on the dates notified to them by advertisement published in any public newspaper.

21. Where the Judge shall be of opinion that the number of Jurors named in either of the said lists who shall have been served is not likely to be sufficient, he may cause to be drawn by lot, in the mode provided by rule 12, such further number of names as he may deem necessary.

[Sixth publication.]

NOTIFICATIONS.

No. 81.—*The 28th January 1924.*—The following draft of revised rules and rates of tolls for the Calcutta and Eastern Canals, Tolly's Nala and Sundarbans Steamer Route, which, in exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make in supersession of all previous notifications on the subject, is hereby published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 20th March 1924, and any objections or suggestions received by the undersigned before that date will be considered :—

Draft Revised Rules and Rates of Tolls.

The rules shall apply to the following navigable channels which are in the designation "Calcutta Canals and Tolly's Nala" and the "Sundar Route."

I. The Circular Canal comprising the still-water canals between Chitpore Locks and the New Cut Canal from Ultadingi to Dhapa Lock, to junction with the river Hooghly and Orange Soora at Dhapa.

II. The Central Lake Channel from its junction with the Circular Dhapa Lock to its junction with the Bidyadhari at Bamunghatta.

III. The Nowbhanga khal extending northwards for a mile from its junction with the Central Lake Channel below the Dhapa Lock.

IV. The Soorah from its junction with the Central Lake Channel below the Dhapa Lock and extending to the fish market situated adjacent to, and to the west of, the Dhapa Inspector's residence.

V. Tolly's Nala extending from a line drawn across the Nala 25 feet west of the Hastings Bridge at Kidderpore to the Bidyadhari river at Samukpota.

VI. The Kristopore Canal extending from a point in the New Cut Canal, 1 mile 4,700 feet from the Chitpore Lock to a point where it joins the Bhangore khal at Kantatala.

VII. The outfall channel of the Thakurdhari sluice, 4,180 feet in length, extending from a point in village Thakurdhari near the 5th mile-post of the Kristopore Canal to the Thakurdhari sluice on the Paran Chaprasi's khal.

VIII. The Sundarbans Steamer Route as defined in notification No. 71 of the 22nd July 1922.

1. Every vessel on entering the Calcutta Canals or Tolly's Nala shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, the persons appointed by the Governor in Council to collect tolls and officers to whom such persons are subordinate shall have authority to enter upon and again measure a vessel notwithstanding that it was measured on entering the canals.

2. Vessels for the purposes of the determination of tonnage shall be divided into two classes as below :—

Class I.—To include all vessels of the usual native types of build, including *saltees* and *hapars* (fish cages).

Class II.—To include all steamers, flats and barges, and other square built vessels.

The net tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements :—

Class I.—

A.—The product of one quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches: the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D.—**Saltees.**—The product of one quarter of the inside length of the vessel measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

Class II.—

vessels of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I, shall be increased by one-half. For vessels of this class above 5,000 maunds measurement the maundage shall be reckoned to the nearest integral multiple of 500 maunds; rejecting any remainder of less than 500 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of class II which are furnished with reliable way-bills, the gross maundage of cargo shown by the way-bills, or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which toll will be charged :

Provided that firms or individuals, who wish to make use of this rule, must be approved by the Superintending Engineer of the Southern Circle, and that such approval may be withdrawn for any just cause.

2. Every vessel entering the canals shall be furnished with a ticket on which the name of the serang, manjee or other person in charge of the vessel, the date of entry, the maundage of the vessel, the cargo it contains, the amount of toll charged, and the number of days for which the ticket remains current, shall be entered.

Tolls are payable on demand and shall be paid at the toll station before a vessel is admitted to proceed: Provided that the Superintending Engineer of the Southern Circle may at his direction permit vessels belonging to individuals or firms of small tonnage to proceed without pre-payment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

5. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rule 2 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section IX of the Act.

6. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a sum of one rupee and annas eight. Election Case No. 8 of 1924.

Amulya Dhone Addy

versus

Mr. Byomkesh Chakravarty.
Raja Reshee Case Law, C.I.E.
Mr. Murali Dhar Roy.

Report.

This election petition concerns the Bengal National Chamber of Commerce Special Constituency. It appears that a number of firms are members of the Bengal National Chamber of Commerce. When the electoral roll of this special constituency was prepared, 118 firms or companies were placed on the roll out of a total of 180. Sixty-two persons were entered by their names as electors. There were four candidates on the date of the election to the Bengal Legislative Council. Mr. Byomkesh Chakravarty and Raja Reshee Case Law obtained a majority of votes and were declared elected. The petitioner was an unsuccessful candidate. He filed the present application making the other three candidates parties. There was no allegation against Raja Reshee Case Law and Mr. Murali Dhar Roy, the respondents Nos. 2 and 3. Mr. Murali Dhar Roy did not appear. Raja Reshee Case Law appeared on the first date, but as the petition was not pressed against him, he was allowed to depart.

The petition proceeded only against Mr. Byomkesh Chakravarty. The main contention raised by the petitioner is that Mr. Chakravarty is not entitled to be a candidate by reason of the fact that his name does not appear on the electoral roll, though the Bengal National Bank, Limited, of which he is a director, is on the roll. The petitioner also pleaded that firms and companies are not entitled to be registered as electors in the electoral roll and all votes purporting to have been exercised on their behalf ought to be rejected. Certain other allegations were made; but it is not necessary to mention them as they were not pressed. The reply of Mr. Byomkesh Chakravarty is that the petition is out of time, that the petitioner, not having objected to his nomination at the scrutiny of the nomination papers, has waived his right to question the nomination and election, that the Bengal National Bank, Limited, is an ordinary member of the constituency known as the Bengal National Chamber of Commerce Constituency and is therefore rightly registered as an elector and that he as director of the aforesaid bank is duly qualified to be nominated and elected and returned as member of the Bengal Legislative Council. It was mentioned that in other Commerce and Industry Constituencies firms and companies are registered as electors in the rolls of such constituencies. The following issues were framed by us:—

- (1) Is the petition barred by time?
- (2) Was Mr. Byomkesh Chakravarty properly nominated in view of the fact that his name does not appear in the electoral roll?
- (3) Were there any votes improperly received—
 - (1) either because they were votes given by firms and companies, or
 - (2) because the votes were tampered with?
- (4) Was Regulation LVI complied with? If not, was the result of the election materially affected thereby?

At the time of the hearing the petitioner gave up issues 3 (2) and 4, but an additional issue was framed as follows:—

- (5) Has the petitioner waived his right, if any, to question the nomination, election and return of the respondent?
Has he acquiesced in the correctness of the electoral roll, and is he precluded from now questioning its correctness?

Issue No. 1.—The election petition was filed on 2nd January 1924. Mr. Chakravarty filed the return of his election expenses on the 14th December 1923. It appears that the intervening days between the 28th December 1923 and 2nd January 1924 were notified by the Local Government as days to be observed as holidays in Government offices. We have examined the notification and we have no hesitation in holding that the petition is in time.

Issue Nos. 2 and 3.—Rule 8 (2) of the Bengal Electoral Rules states that the qualifications of an elector for a special constituency shall be the qualifications specified in schedule II in the case of that constituency. Turning to the Schedule II, 13 (2) we find that "~~life and~~ *any members of the Bengal National Chamber of Commerce.....shall be electors for the Constituency comprising.....the Chamber of which they are members*".

Provided that no person shall be so qualified who has not a place of residence in India.

There is an explanation which runs:—

"Explanation—Member, life member, ordinary member include—

- (a) in the case of a firm, any one partner in the firm, or if no such partner is present in Calcutta at the date fixed for the election, any one person empowered to sign for such firm, and
- (b) in the case of a company or other corporation any one manager, director or secretary of the company or corporation."

These qualifications are not enough to get the elector on the electoral roll. To be entitled to have his name registered "the person" must have the above qualifications and must not be subject to the disabilities of minority, lunacy and so on. Rule 7 (1) governs rule 8 (2). Rule 10 again lays down that the person registered on the electoral roll shall be entitled to vote, but not if he is subject to the disabilities mentioned in rule 7. Rule 6 (b) says that no person shall be eligible for election as a member of the Council to represent a special constituency *unless his name is registered on the electoral roll* of the constituency and to be fit for election under rule 5 he must be a British subject, not a female nor a lunatic nor a bankrupt nor an unpardoned ex-convict and so forth. Various other rules and regulations including Regulation XV have been referred to and have been considered by us. We cannot but come to the conclusion that the legislature intended that it was a natural person who should have the right to be on roll and to be entitled to vote or nominate or be a candidate. We had the advantage of hearing the learned Advocate-General in the case and he has admitted that if the word "person" is construed strictly the idea of a firm being on the electoral roll must be discarded. We cannot go to the General Clauses Act or the English Interpretation Act for the proposition that a person includes an association. It is our duty to construe the law in question here. It is an accepted canon of construction that unless there is something in the context to the contrary, the same word has the same meaning. The explanation in the schedule means no more than that a firm must exercise the franchise through a partner or representative. It seems that by the constitutions of these chambers and associations firms and companies can be members of these bodies; but we do not consider that the legislature intended to put firms and companies on the electoral roll.

Learned Counsel Mr. H. D. Bose appearing for Mr. Chakravarty wished us to lay stress on the Schedule II, paragraph 13, and he contended that firms and companies can come in. He argued that since firms can be on the electoral roll the persons who make up the firm are on the electoral roll and that therefore a partner can be eligible for election.

The learned Advocate-General confessed that the rules were not very clear but wished us to adopt a view, if we could, which would reconcile the law to the existing state of things. He urged that the legislature must have been aware of the constitutions of these associations and chambers and that the draftsman who drew up the rules made the mistake of not making things clear. It was argued by him that since firms can only work through a representative it might be taken that the disabilities which can be predicated only of a natural person were meant to apply only to the representative of the firm. It was pointed out that in these Commerce and Industry Constituencies there is no ballot and the electors need not appear in person, and that the voting papers are sent to them and returned by them to the returning officer.

There is nothing necessarily unreasonable in firms being put on electoral rolls, being allowed to vote and nominate and being even candidates for election; but we venture to think that if this was the intention of the legislature, the legislature would have made rules to carry out the idea. Firms being artificial persons can only act through a natural person. The question is, did the legislature intend that the representative of a firm should be allowed to vote and stand for election without being on the electoral roll? Learned Counsels are really assuming that, by rule 8 read with Schedule II, firms were meant to be electors and then asking us to interpret the other rules in this light. But if we consider the rules and the schedule, the qualifications with their provisos and explanations, the disabilities which electors must not be subject to, and the rule that no votes shall be received by proxy, there is no escape from the conclusion that it is the partner or representative of the firm who should be on the roll and be able to stand for election.

We must not be led into absurdities. Females, lunatics, minors and aliens cannot be electors; but we are to hold that if they join with one another they should be "deemed" as electors. It was suggested by Mr. Bose that they may remain on the electoral roll thus joined as firms; but the disabilities might be considered when they exercise their right to vote. The disabilities have to be taken into account under rule 7 when persons are to be put on the roll or during the period allowed for objections thereto.

Consider for a moment again where the proposition that a firm can be a voter, will lead us. It is the elector eventually who becomes a member of the Council. Does the

firm become member of Council? Certainly not. The candidate has to give the name of his father and his age and, if elected, he is to take the oath. If he dies, resigns or goes away, etc., the constituency is called upon to elect another person. If the argument be that a firm is an elector then the firm is eventually the elector and there is nothing to prevent the different members A, B, C of a firm sitting on different dates. Learned Counsel will not face the logical conclusion. It was argued by Mr. Bose that once elected the member is not bound to obey the commands of his constituency. That is so; but if you say the firm is the elected person, then why should not the firm exercise its rights in Council through different representatives? Very likely in these associations and chambers firms act in this fashion. Different partners might vote on different dates. That is not possible in the Bengal Legislative Council. The elected person is there for the life of the Council. He has years and he has a father and he has to take the oath. Learned Counsels are therefore forced to admit that when it comes to the question of election to the Council the candidate must be a natural person. If we follow the rules down to the election the conclusion is that that candidate must be on the electoral roll. The question of an elector or a proposer or a seconder stands on the same footing.

With great respect to the learned Advocate-General we cannot follow him in his contention. We cannot add and subtract to bring the law into conformity with the way the electoral roll has been prepared. "We are not entitled," said Lord Loreburn (Vickers and Evans v. L. J. K. 1955), "to read words into an Act of Parliament unless clear reason for it is to be found within the four corners of the Act itself." The learned Advocate-General wishes us to leave out the proviso clause about residence in the schedule and leave out the disqualifications as affecting firms and add that this proviso and these disqualifications refer to a representative of the firm who is not himself on the roll. "Nothing is to be added to or to be taken away from a statute, unless there are adequate grounds to justify the inference that the legislature intended something which it omitted to express" (Tindal C. J. in *Everett v. Wells*, 2 M. & Gr. 277 and Lord Eldon in *Davis v. Marlborough*, 53 R. R. 29).

It was mentioned that the contention of the petitioner, if given effect to, will cause great hardship. The hardship consists in the fact that in these Commerce and Industry Constituencies firms have been put on the electoral roll. We learn that there are only three individuals on the roll of the Bengal Chamber of Commerce and none on the roll of the Trades Association. The electoral rules seem to provide for a revision when the roll is very defective. The argument of hardship is a dangerous one to listen to. Courts ought not to be influenced or governed by any notions of hardship. "They must look hardships in the face rather than break down the rules of law" (Jessel in *Ford v. Kettle*, 9 Q. B. D., p. 139). Even if there were anything to suggest *aliunde* that it was the intention of the legislature to put firms on the electoral rolls we are not at liberty to speculate. Our business is to construe not what the legislature meant but what its language means. We expound but we do not improve the statute. We are to remember, as Lord Bacon said, that our office is "*jus dicere*", not "*jus dare*." The law as laid down in these rules is not unreasonable nor inconsistent nor unjust and the natural construction cannot be departed from, merely because it may operate with hardship or injustice in some cases.

There is one sentence in the explanation to paragraph 13 of Schedule II which has been made much of. Let us repeat it. "Members, etc., include (a) in the case of a firm any one partner in the firm, or if no such partner is present in Calcutta at the date fixed for the election, any one person empowered to sign for such firm." It looks at first sight as if the legislature contemplated a fluctuating body. Mr. Bose argues that it gives power to a firm to put up a representative for election if a partner is absent from Calcutta. Logically it follows that even though someone else has been nominated, if he is absent on the date of election, the firm might put up another person for election. The learned Advocate-General thinks that this would be going too far and that at the date of the election, as only the right to vote is left, the firm might exercise the right to vote by a representative other than a partner. The meaning of the sentence has not been very clearly expressed; but we have to look to the rest of the statute to construe it. If the firm has already put forward a candidate who has been nominated but who has had to leave Calcutta, it cannot be that the firm can say that it will have some other representative in his place. The returning officer will, under the rules, reject him at once as not having been nominated at all. We have seen and it is conceded that when it comes to election the candidate must be an individual. The date of final publication of the electoral roll is not very long ahead of the election that is going to take place, and the date for lodging claims can be extended by Regulation XI, and our interpretation is that the sentence means that the firm would know beforehand if the partners are going to be away and they can put forward a person empowered to sign for such firm as the elector in the electoral roll. The word "include" only enlarges the meanings of phrases and words, and here it only extends the power of the firm to put forward a representative other than a partner. The very explanation, if considered along with the rules, shows that it is not the firm which is to be on the electoral roll but the partner or the representative. If the contention of the learned Counsel be correct the explanation was unnecessary.

We are fortified in this view by a consideration of the electoral rules in the other Provinces. We take them from Mr. Hammond's book. Take Bombay: The rule for the

local Council is that "a person shall be qualified as an elector for a Commerce and Industry Constituency whose name is entered in the list of members, for the time being in force of the association forming such constituency or who is entitled to exercise the rights and privileges of partnership on behalf of and in the name of any firm or company or corporation entered in such lists of members." The Assam and Central Provinces Rules are precise and lay down that the person is to be authorised by the firm as well. It is clear that a natural person is meant. An examination of the Council of State rules leads us to the same conclusion. In the Indian Commerce Constituency of Madras the rule is, "every Indian and one *duly authorised representative* of every Indian partnership shall be qualified.....if such person *has* resided in the Presidency, etc." Clearly a natural person is meant.

In the very Schedule II of the Bengal Electoral Rules in the earlier part a distinction is drawn between a person and a firm, and in cases of joint families it is laid down that the person qualified is the manager of the family. All throughout therefore it is the individual who can vote and who can stand for election. We hold therefore that the petitioner's contention must prevail. Mr. Chakravarty's name not being in the electoral roll he was not properly nominated. We hold that the election of Mr. Byomkesh Chakravarty was null and void and that it should be set aside. We are of opinion that a fresh election should be held to fill the vacancy so caused.

No evidence has been produced before us as to the actual votes given, and we are therefore not in a position to hold that any votes should be rejected because such votes were given by companies and firms. It has transpired, however, that the Bengal National Bank, Limited, nominated Mr. Chakravarty to contest the seat and empowered Mr. B. N. Banerjee to vote for the Bank. Mr. Bose argues that there is nothing to prevent a firm from exercising these separate rights. It is sufficient to say that in the view we come to the person who can exercise the right to vote must be on the roll and the procedure was incorrect.

Issue No. 5.—It was pointed out that the electoral rolls were prepared some time ago. The rules contemplate the filing of objections. No objection was taken by the petitioner then or before the returning officer. All parties proceeded upon the basis that there was a valid nomination paper. The petitioner courted the election and has now come forward with his objection only after he has been unsuccessful. However morally wrong he may be, it cannot be said that there is any waiver. There is no question of estoppel. The petitioner does not seem precluded from raising his present objection. It is an objection which could be taken by any elector of that constituency. The objection goes to the very root of the matter. The electoral roll is final in certain matters, *e. g.*, qualifications; but the question whether there is any disenfranchisement by the statute itself is one which can be raised before the Election Court (*Stowe v. Joliffe*, 1874 L. R. 9 C. P., p. 750). The issue is therefore decided in favour of the petitioner and against the respondent.

It was suggested that in the event of our coming to the conclusion that firms cannot be electors the whole election should be set aside. We are unable to accede to this request. As stated before the case was not pressed against Raja Rishee Case Law and we do not think that we should touch his case. We think that on the pleadings and the facts placed before us the election of Mr. Byomkesh Chakravarty only should be set aside.

In the circumstances of the case we recommend that the parties do bear their own costs.

Election case No. 10 of 1924.

Nawab Mirza Shujaat Ali Beg Khan Bahadur, *petitioner*

versus

Maulvi Mahboobul Haq.

Report.

This is a petition by Nawab Mirza Shujaat Ali Beg Khan Bahadur against the election of Maulvi Mahboobul Haq from the 24-Parganas Municipal (Mahomedan) constituency to the Bengal Legislative Council. The petitioner and the respondent were the

only two candidates for election. The 1st of December 1923, 8 A.M., was fixed for counting of votes. The parties with their agents attended, and the counting was done in their presence. The Returning Officer announced the result of the poll and declared the respondent duly elected. The petitioner obtained 911 votes and the respondent 936 votes. There were 48 rejected votes. Soon after when the verification statement required by Regulation XLVIII was being prepared, it was discovered that one ballot box from this constituency had not, by mistake, been opened. It appears that in its place a ballot box of the Hindu constituency had been opened, but the Hindu votes had been rejected. The unopened ballot box was of the Baduria Municipality. The Returning Officer sent for the candidates at once. The respondent was not found. The petitioner turned up and an agent of the respondent also came and the contents of the ballot box were counted in their presence. Two hundred and four ballot papers were found in the box. Eighty-one votes were in favour of the respondent, while 123 votes were for the petitioner. One ballot paper was rejected. The total votes for each candidate thereupon stood, for the petitioner 1,034 and for the respondent 1,017. There were 38 rejected votes. Eleven of the votes given by Hindus for the Non-Mahomedan constituency were taken out as they did not concern this constituency. This result reversed the decision arrived at when the votes were first counted and Maulvi Mahboobul Haq was declared elected. The Returning Officer thought that his first declaration was invalid, but he was not sure if he could make a second declaration and he thereupon submitted his report to Government for instructions. We do not know what the instructions were, but Maulvi Mahboobul Haq's name was published in the *Calcutta Gazette* as that of the elected candidate. The petitioner thereupon filed his present application.

These facts are not challenged in the written statement filed by the respondent. The respondent made a grievance that he was not present at the second counting of the votes and he submitted that the Returning Officer should not have opened and counted the votes in the unopened ballot box after announcing the result of the poll and pleaded that the Returning Officer was functus officio.

Mr. Lindsay, the District Magistrate of the 24 Parganas, who was the Returning Officer, was examined in the case and he corroborated the petitioner's case and explained how the papers of the ballot boxes had been mixed up and counted and the result declared and how the mistake was subsequently discovered when the return required by Regulation XLIX was being prepared and how the parties were sent for and the ballot papers in the Baduria box counted. It appears from Mr. Lindsay's evidence that the result of the second counting was declared by him to the people present. The result of Mr. Lindsay's counting is not challenged.

The learned pleader for the respondent contends that the Returning Officer was functus officio after he made the first declaration. It is argued that the Returning Officer should not have touched the unopened box. Certain English cases have been cited. They are mentioned in Parker, page 385. The English rule is that if a mistake is discovered after the Returning Officer has declared the result, "the mistake can only be rectified by filing an election petition praying a recount." It seems to us that this is the procedure which has been followed in this case. The Returning Officer having made his declaration, he was not entitled to reverse his decision. The English cases cited do not show that the Returning Officer cannot ascertain his mistake. Turning to our Rules and Regulations, it cannot be said that the Returning Officer was functus officio. He had still to make the return mentioned in Regulation XLIX and the report to the Secretary to the Council under Rule 14 (9). It may be even said that the first declaration was a void declaration as it was made on an incomplete counting. Rule 14 (7) states that "when the counting of the votes *has been completed*, the Returning Officer shall forthwith declare the candidate, to whom the largest number of votes has been given, to be elected." The counting of the votes had not been completed inasmuch as the contents of the Baduria box had not been taken into account. The Returning Officer was not, therefore, functus officio. Even if he was, it is open to us to take into account the contents of this box.

A complaint was made that the respondent was not present and had no opportunity to examine the box and that, therefore, he was prejudiced. Rule 14 (6) had been quoted. It says:—"Votes shall be counted.....and each candidate, the election agent of each candidate, and one representative of each candidate, authorised in writing by the candidates shall have a right to be present at the time of counting." It is proved that the respondent was sent for. He was away and could not be found, but his agent Mohammad Fakiruddin turned up and the counting was done in his presence. It is now said that Mohammad Fakiruddin was not authorised in writing by the respondent to be present at the counting.

The respondent admits that in the morning he took Mohammad Fakiruddin and another gentleman with him to be present at the counting. He admits that Mohammad Fakiruddin was one of his polling agents. It is too late to say that Mohammad Fakiruddin was not his agent and had no written authority. The Returning Officer is not bound to admit an agent to be present at the counting unless he is authorised in writing by the candidate, but when the candidate takes an agent of his to be present at the counting and the same agent is present at the second counting, it would seem that the requirements of the law have been fulfilled. If Mohammad Fakiruddin was good enough to be his polling agent, he was good enough to watch the counting on his behalf. The respondent is obviously trying to disown his own representative. As we have said before the counting

by Mr. Lindsay is not challenged. It seems ridiculous to us for the respondent to complain of any hardship. The hardship was on the other side since the petitioner was not declared elected in spite of the fact that he had a majority of the votes.

The learned pleader for the respondent contended that the petition was not maintainable inasmuch as the petitioner had not asked for a recount. Rule 33 (1) states that "the petition shall contain a statement in concise form of the material facts on which the petitioner relies" and Rule 34 says that "the petitioner may, if he so desires, in addition to calling in question the election of the returned candidate, claim a declaration that he himself has been duly elected". The petitioner has done this and has asked that on the votes ascertained by the Returning Officer, he should be declared and returned as duly elected since he obtained the largest number of votes. If the learned pleader means that all the ballot papers should be recounted, all we need say is that this is unnecessary. It is common ground that up to the declaration made by the Returning Officer on the first count, the counting is correct. The only question therefore before us is whether the contents of the box which was subsequently found should be taken into account or not. The petitioner is entitled to proceed on the figures ascertained by the Returning Officer. The Returning Officer has deposed that had he made the discovery earlier, he would have declared the petitioner as elected. He stayed his hand because he had already made the declaration. The learned Vakil for the petitioner has quoted a case which is apposite: *in re North-Eastern Derbyshire Election Holmes versus Lee* reported in 39 Times Law Reports, 1923, page 423. It appears that in this case three ballot papers at a Parliamentary Election were found in different ballot boxes after the declaration of the poll: one which was for the petitioner on the date of the declaration and two which were for the respondent after a lapse of 11 days; it was held that as these papers had been inadvertently left in the boxes, in the particular circumstances of the case the three votes must be allowed. We hold that the ballot papers in the Baduria box must be taken into account.

Our conclusion therefore is that the respondent Maulvi Mahboobul Huq was not duly elected and that this election and return should be set aside and that it should be declared that the petitioner was duly elected from this constituency.

Since the respondent was not responsible for the mistake which has resulted in this election petition, we recommend that the parties should bear their own costs.
